

Definition Guidance Candle

The Guidance Candle is a love candle, a tangible memory of a beloved one. Being handmade each Guidance Candle is unique. Based on pure love the Guidance Candle is the perfect instrument to accompany the soul of the deceased towards another dimension and to commemorate him/her on the other side. As the “other side” is understood in various ways the Guidance Candle has a universal meaning. The Guidance Candle stands for the unbreakable bond of love between people and their beloved ones, who shared and felt this love during their earthly existence. The candle as a whole symbolizes this bond of love and communication. It is an expression of the care of the deceased and after-care of relatives. In palliative care it is a means to find the way to light in a symbolic way. The Guidance Candle is intended for palliative care, funerals and commemoration as death does not break any bond of love.

Explanation of symbols

Pyramid:	possesses the hidden power of life after death, has a stairway to heaven and points at the stars
Ball:	gives cosmic reality and symbolizes infinity
Butterfly:	carrier of the soul, symbolizes the immortal soul and the three stages; life, death and resurrection
White pigeon:	carrier of the soul, symbolizes the departing spirit and pure love
Silver cord:	life-line between body and soul, which is broken at death
Purple:	spiritual power and mourning-colour at death
Blue:	spiritual rest and colour of sky
White:	purity, divinity and colour of perfection
Candle light:	power of Light, symbolizes light through any darkness
